Release information

Item	Details
Model Number	NTC-140-01
Router Firmware Version	2.0.23.19
Firmware file name	vzw_140ng_2.0.23.19.cdi
	MD5: 93d02388e7ccafaa419790351626efe4
Date	9 March 2018

Release history

v2.0.23.19 (Initial firmware release for technical approval)

New Features/Changes

- Removed the WiFi and GPS features.

Enhancements

- TT#21441: Corrected an SDK issue where a uImage could not be generated because of a missing variant in the Linux kernel (vi linux/kernel/timeconst.pl)

- TT#21518: Corrected an SDK issue where after installing uImage, the device could not complete the reboot process.
