

ION x6110 & x6120 Release Notes

Date: October 2, 2017

Version: 2.0.3

Overview

This release note covers the requirements, important notes, new features and changes, addressed issues and known limitations for the ION x6110 & x6120 Series of products.

Requirements:

Firmware version 2.0.3 and these release notes apply to the following products:

- ION C6110 Series Products
- ION S6110 Series Products
- ION C6120 Series Products
- ION S6120 Series Products

New Features and Enhancements:

The following is a list of new features and enhancements in version 2.0.3 of the x6110 & x6120 Series.

- Updated firmware so changes made to the Ethernet port's configuration is now saved to the card and not lost during a power down situation
- Fixed the In-band Loopback feature so it is now fully functional and remains active until it's configuration is changed

Known Feature Limitations:

The following list is currently known issues for the ION C6110 & C6120 products.

- None
