S4224 Release Notes
Date: Dec.8, 2016
Version: 2.2.9.3

Overview

This release notes covers firmware version v2.2.9.3 for S4224.

Release Changes and Enhancements

1. A minor delay has been added as syslog entries are retrieved from memory to prevent potential loss of management connectivity during that time due to high CPU utilization.
2. While running "sh log" command, Ctrl-C has to be entered twice to interrupt the command and return to the command prompt.
3. The total number of syslog records stored on the S4224 has been limited to 1000.

Known Limitations and Restrictions

N/A
