

IONMM Release Notes

Date: September 30, 2025

Version: v1.5.17

Overview

This release note covers the requirements, important notes, new features and changes, addressed issues and known limitations for the IONMM product family.

Access to the management data from the IONMM products is available using a web browser or the Command Line Interface (CLI) via telnet, ssh and serial. Management is also available via SNMP.

Requirements:

Firmware 1.5.17 and these release notes apply to the following products:

- IONMM
- IONMM-232

New Features and Enhancements:

The following new features and enhancements are incorporated into firmware version 1.5.17 of the IONMM

- Added SFTP support where files can be uploaded to or downloaded from the IONMM
- Disabled autocompletion on password entry boxes
- Implemented fix to prevent “clickjacking”
- Fix issue where added users were not able to connect via ssh
- Fix issue where backups may fail if IONMM is in a Chassis Slot other than 1

Related Documentation:

- IONMM-232 ION Management Module Installation Guide (33725)
- ION Management Modules (IONMM and IONMM-232) User Guide (33457)
- ION System (IONMM, ION x323x NID) Command Line Interface (CLI) Reference (33461)

Known Limitations:

- After upgrading from version earlier than 1.5.0, new backups should be made.
