## Focal Point Release Notes

**Date: March 16, 2017**

**Version: 3.1.6.0**

---

### Overview

This release note covers the requirements, important notes, new features and changes, addressed issues, and known limitations for Focal Point software.

Focal Point provides just one method of accessing the management data from the IONMM. This data is also available using a web browser or Command Line Interface (CLI) via the local USB port or telnet. Management is also available via SNMP.

### Requirements:

Focal Point version 3.1.6.0 and these release notes apply to the following products:

- IONMM
- Focal Point Application software

### New Features and Enhancements:

The following is a list of new requirements, features, and enhancements in version 3.1.6.0

- Focal Point version 3.1.6.0 or higher is required when the IONMM management module is running firmware version 1.3.15 or higher.
