SMxxTAT2SA Release Notes
Date: Apr.10, 2017
Version: 1.00.929

Overview

This release notes covers firmware version v1.00.929 for SM8TAT2SA, SM16TAT2SA, SM24AT2SA.

Release Changes and Enhancements

1. Add JSON RPC API
2. Bug fixes
    a. To Change gateway address in the IP Settings page, the default route will not be overwritten.
    b. If there are two default route entries, to delete default route in the advanced IP settings, IP status will show a wrong default route address, it doesn't match current gateway setting in IP Settings page.

Known Limitations and Restrictions

N/A
