

SM8TAT2SA-DC Release Notes

Date: May.18, 2020

Version: 1.02.1463

Overview

This release notes covers firmware version v1.02.1463 and Mib file for SM8TAT2SA-DC.

Release Changes and Enhancements

[Added]

=====

- * API: Add device list table.
- * Add a setting field for non-stop-poe function.

[Bugs Fixed]

=====

- * Change the URL of the device list table API.
- * Aggregation: Using static trunk will produce incorrect information.
- * The Switch does not have Non-Stop PoE function.

Known Limitations and Restrictions

After switch reboots or user logs out, timeout setting in Web GUI will be back to default value.
